# e-Station

## The natural solution for capturing the digital business

### **The world is changing, and photos are too!**

The proof is all around us with the present digital boom. In order to respond to this new phenomena in society, KIS has designed a made-to-measure tool for you, at the very height of technology: e-Station.

### **Self-service Kiosk**

e-Station provides the best solution for your customers and guarantees your digital business will take off. With its numerous configurations adaptable to each photo space, as well as its large array of services, e-Station will continue to seduce!

### **Standalone, high performance, upwardly compatible...**

e-Station is the naturally innovating and winning solution for you and your customers.

# e-Station

## A new generation of self-service kiosks

## Connected or standalone: choose your configuration!

e-Station offers you "à la carte" configurations that you can mix and match to your way of working, print at the kiosk itself or send prints to your minilab locally or remotely via DSL<sup>(3)</sup> and/or copied to a Transfer CD<sup>(4)</sup>. Total flexibility for your production management !
